PROGRAM SUMMERY

Program Title: How to be an Effective Presenter

Resource Persons : In-house Soft Skills Trainers, T & P CELL – PBR VITS

Participants : 1ST year Students from H & S department

Total Number of Participants : 109 students

Date : 28-09-2019

Importance & the Objective of the Program

Presentation skills are a set of abilities that enable an individual to interact with the audience and transfer the messages clearly, engage the audience while presenting and interpret and understand the mindsets of the listeners. These skills will polish and enhance one's persuasive skills. Presenting information clearly and effectively is a key skill to get your message or opinion across to the audience. With better presentation skills, you know how to convey your things at the estimated time. An excellent presenter will always communicate important things in less time, making up for time management.

The most successful employees are the ones who can communicate well. People with good presentation skills know how to speak to a crowd with confidence, relaying information in a clear and concise manner. Employees use communication skills on a daily basis when they are communicating with their supervisor, fellow employees, or customers. Effective communication skills are important to ensure that information is delivered in a timely, clear, and professional manner. Great presenters have the ability to communicate clearly to an audience, and thus bring those same great communication skills to the workplace.

The program therefore has been titled – *How to be an effective presenter?* The principal objective of the program was to habituate students to develop effective presentation skills. The session helped the participants to learn the techniques and tricks to make an impressive presentation which undoubtedly would assist them to enhance their employability skills.

Title : International YOGA Day

Date & Time : 21st June 2017, 06:30 AM

Resource Person : Swami Nirmalanada Guruji

International YOGA Day was celebrated with lots of vigor and enthusiasm in our college. The principal objective of this program was to create awareness about the importance of YOGA among the budding engineers of our institute. This program was conducted in association with Visvodaya Boys High School and was guided by Swami Nirmalanada Guruji. The session began with a talk on the importance of YOGA by the Guruji and continued for about two hours which also included yoga feats by the disciples of swamiji. Along with the students, some of our faculty members also took part in the event actively.

Importance of Yoga

Practiced in India since the 5th century, Yoga has been beneficial in keeping the body and mind in sound health. A holistic approach, Yoga targets all the different systems of the body and mind. It is said that the asanas make the body strong and flexible, as health improves; the mind too is renewed with confidence. The practice of Pranayama regulates the purification of the internal system and the organs, acting as a superior and able supplement to asanas. The energy that is generated in the body through these physical practices is then channeled into meditation or Dhyana for stability, peace and calm.
