Engineers day

The future of our country depends on the young engineers who are now getting processed in many technical institutions. Our Institute PBR VITS is one among many prestigious institutions in the country which produced many employable engineers and many young engineers are now being processed through the expertise of excellent faculty.

We further emphasize that there are so many engineers in the country who were performing their duties with a more dedication and with more commitment in many fields. Fortunately we have many engineers who have served the country till their last breath with an excellent achievements in many areas like agriculture, industry, infrastructure development, transportation, communication, information management etc. we have good regards towards them for their endless services rendered to the society till the end of their life.

In the view of remembering the eminent and dedicated engineers who were demised and also to applause the services of the existing engineers who are service oriented, we have celebrated the engineers day on 15th September in our campus on the occasion of the birth day of Sir Mokshagundam Visveswaraiah and we feel that this would be an encouragement to the budding engineers and will show a path to them as well since the lives of the engineers who served the human society would not to be ignored.

On the engineers day the retired engineers who served a lot to the country have addressed the students and gave good suggestions, thoughts, ethics and morals. The other dignitaries on the dais were our Principal Prof.Dattatreya Sharma and T.Suresh Babu, , Senior faculty,Dept. of Civil engineering was invited. The invite has given a good message to the

students. The programme has come an end after the invitees were felicitated by VEC NSS UNIT. Students felt very happy and the programme and it was a big success.

The program was covered by all the local TV channels and news with photographs were published in all daily news papers.

Student's day celebration

For Dr Abdul Mr Kalam, students were supreme. His work for students was phenomenal. Mr Kalam believed that children were capable of doing great things if only they receive exposure and encouragement. Mr Kalam considered himself blessed to grow up in the company of simple minded people who taught him the power of books, reading, and knowledge and above all inspired him with their righteousness. He took it upon himself to create the same conditions for every child so that they could grow to great heights.

In a world run by corruption and glamour, Mr Kalam was nothing less than a savoir come to gently guide the children towards the right path. He made every child feel precious and very important.

This is why Oct 15, the day our beloved leader was born must be celebrated as student's day. It is to remember his inspiring words and re-energize our self to follow his footsteps. Prof P.Suresh Babu, Principal,Vivodaya Engineering College,Kavali was invited as the chief guest for this occasion.

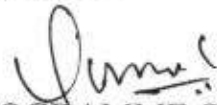

As part of our Endeavour to make the celebration achieve its goal of motivating and inspiring our students, we had a grand mix of educational and entertaining activities. The students played an important role in organizing the event. It is a good gathering with hundreds of students gathered to celebrate this event very enthusiastically as Mr kalam is considered as the gentle man and a model personality to be followed. The students remember Mr Kalam for his dedicated work in science and technology specifically in the area of research and development that keeps India as a powerful nation in the world. Further the students are aware of the simple life led by Mr Kalam and how he could come up from the miserable conditions he underwent in his childhood later grew to the cadre of the President of the biggest democratic country in the world named INDIA. He has dedicated his life that helps india growing in many preferred dimensions and he served in many prestigious positions in the country that made India as one of the a country with self sufficiency in defense and Space technology.

For the students he is a set example to be considered in achieving the best things and to get cooped with any sort of hard ships they do come across in their day to day challenges in shaping their future.

As imitation is the first step towards emulation, they created glimpses from the past by presenting motivation speeches of greatly people like Satya Nadella, Jawaharlal Nehru, Martin Luther King, Indra Nooyi etc.

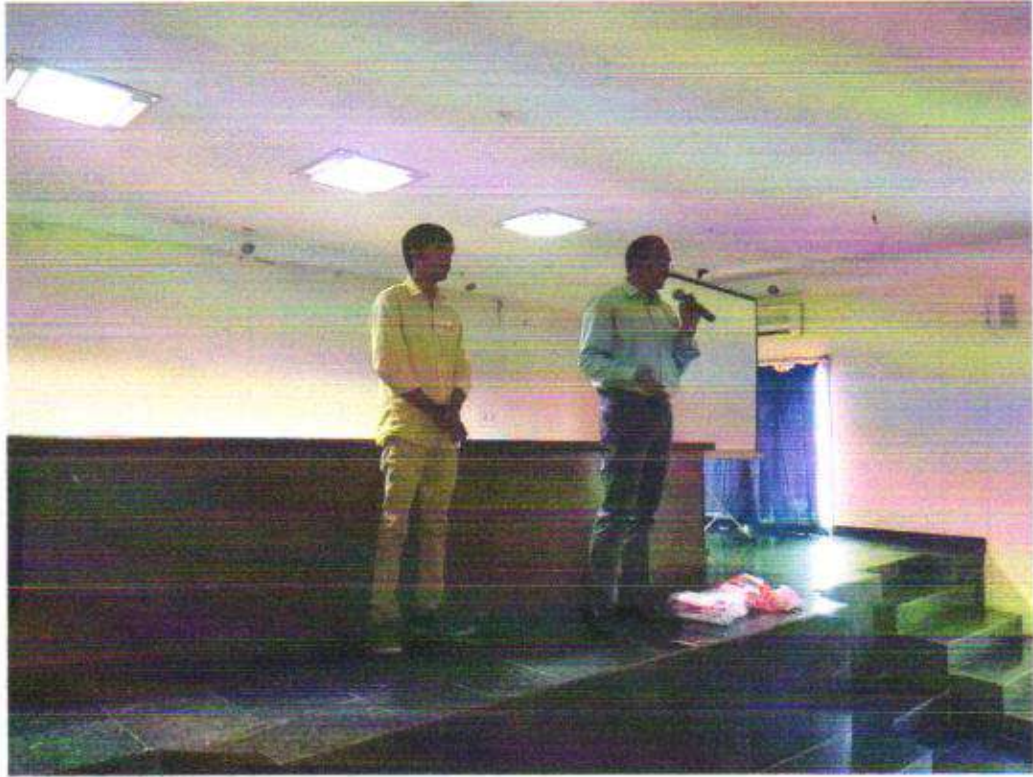

As learning happens to be the best when it combines instructions and entertainment, we had a good member of role plays, songs, jokes, tongue twisters, etc. The students went back invigorated and happy to be at the fore front of a happening world.

The programme was covered by local media and the news was published in all dailies with photographs when the distribution of stationary is in progress.

Blood donation camp

Today We have conducted Blood donation camp in our campus with the cooperation of the students and staff.

In the *Blood donation camp*, the students and staff numbering 80 were participated and donated blood voluntarily. The whole programme was conducted under the supervision of the local Govt.Area hospital Superintendent Dr M.Venkateswarlu and other paramedical staff. The programme was succeeded with the active involvement of volunteers among which some of them have donated blood.

In this session the doctors have educated the students and created awareness in the students with respect to several topics like the seriousness, severity, mode of transmission, diagnosis of many communicable diseases and also methods to control COVID and AIDS.

The students made discussions with the doctors and came to know about many realities related to this disease. The students were made to know the facts and were asked to reveal the same to the people in their circles about this disease during their next visit to their places. The students and some of the staff also involved in the programme with great enthusiasm.

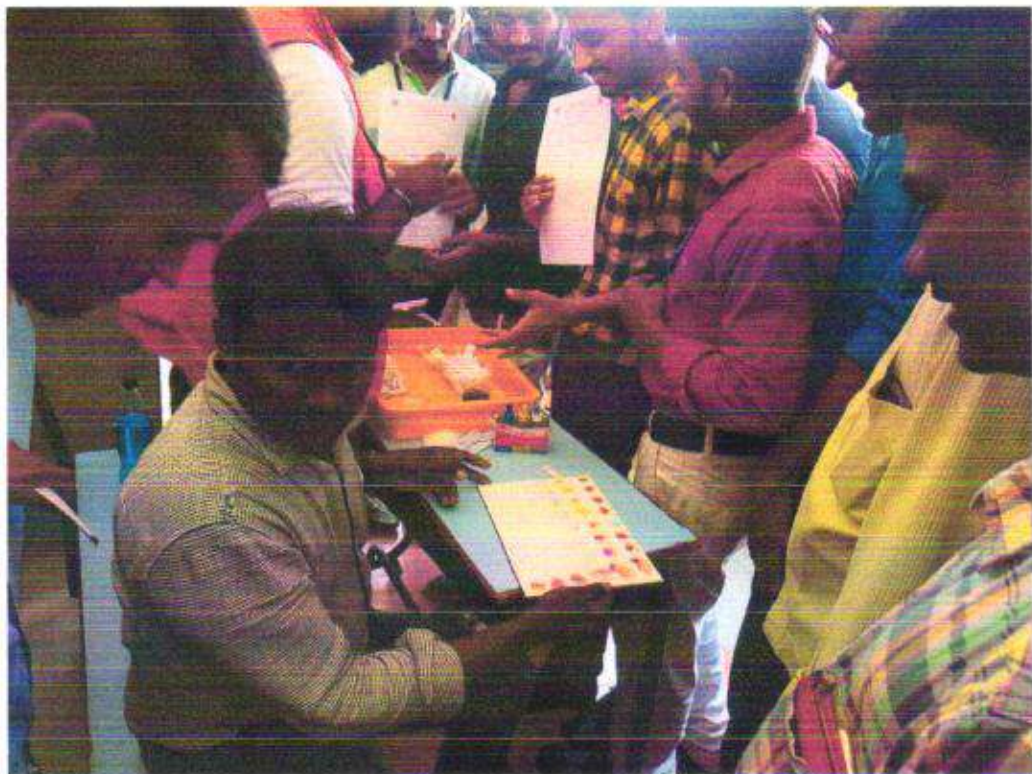

Here with, I am enclosing a few photographs when the event was in progress.
This is for your reference and records.

Conducting *Clean India Programme*

Today, the clean and green programme is launched along Udayagiri Road, a part of Vengal Rao nagar, which is a main road that leads to many important villages and many Mandal headquarters of SPSR Nellore district. In addition to this our college is situated along this road only. So we have taken the task of making this into a model road.

The NSS volunteers along with good number of students have involved in the making Udayagiri road into a Clean and Green Road and done an excellent job. They have made use of many materials for this purpose.

A lot of cleaning work was done along the road sides of Udayagiri Road by removing the rubbish. Boys were involved in the cutting of many weeds and waste vegetation along the road sides. The girls have cleared the wastes accumulated after cuttings. Both girls and boys have shown much interest in this work and they made the either side of the road very clean and green. The area was also leveled by doing minor earth work by the students. The work accomplished by the NSS Volunteers was very much appreciated by the residents and the students also expressed their satisfaction after doing the job.

Prior to the work the volunteers have done they have were interacted with the delegates who were invited to college for the colorful celebration of this occasion.

The whole work was covered by media and I am here with submitting some of the clippings of reputed newspapers and also a few photo graphs of the event launched for your reference and records.

A detailed report on Celebration of Gandhi Jayanthi

Every citizen is require to look into the life history of great persons like Mahaathma Gandhi.. Our Institute is a prestigious institutions in the country which produced many employable youth and in the process of shaping their future and to improve the nature of social responsibility we take great persons like Mahatma Gandhi. Celebration of Gandhi jayanthi is the one that makes us feel a great privilege and we feel that this would be an encouragement to the budding engineers and will show a path to them as well since the lives of the engineers who served the human society would not to be ignored.

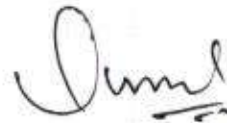

Mohandas Karamchand Gandhi, also known as Mahatma Gandhi, was an Indian lawyer, anti-colonial nationalist, and political ethicist, who employed nonviolent resistance to lead the successful campaign for India's independence from British rule, and in turn inspired movements for civil rights and freedom across the world. His family stayed in India while Gandhi went to London in 1888 to study law and to South Africa in 1893 to practice it. Gandhi's campaigns sought to combat the second-class status Indians received at the hands of the British regime. But the image of Gandhi that has lasted is one that foregrounds his dogged fight against the oppressive forces of racism and colonialism and his commitment to nonviolence. He is considered as "Father of Indian nation. He was awarded with the title called Mahaathma".

We further emphasize that there are so many engineers in the country who were obtained the engineering degree from our college are performing their duties will maintain the morals and with more commitment in many areas like agriculture, industry, infrastructure development, transportation, communication, information management etc.

In view of remembering the eminent and dedicated his life to release the country from the hands of British and a great social reformer Mahatma Gandhi, we are celebrating the birthday of on 2nd October every year.

On the Gandhi Jayanthi day we invite the retired engineers and also the social reformers who served a lot to the country have addressed the students and gave good suggestions, thoughts, ethics and morals. The other dignitaries on the dais were our Principal Prof.Jagadheeshwara Reddy, Prof.Konda Reddy,HOD,Dept. of Mechanical engineering, were invited. The invitees have given a good message to the students. The programme has come an end after the invitees were felicitated by PBR VITS NSS UNIT. Students felt very happy and the programme and it was a big success.

The program was covered by all the local TV channels and news with photographs were published in all daily news papers.

ENROLLMENT OF YOUNG VOTERS

Every citizen of country is provided with the privilege of voting in the elections to choose their leaders who acts as representatives to focus the problems of the concerned area because they are considered as law makers. The living standards of the people get improved if the ruling is done by true leaders.

The minimum age of enrolling the names in the voters list is 18 years. So the individual who crosses the age of 18 years are required to enroll their names to avail the facility of casting their vote so that they can choose suitable person as their representative for the origin of a better society.

So today the government officials have visited our college to interact with the students with an idea that student who are doing engineering course may probably gained the age of 18 years hence this is the age at which they have the consciousnesses through which they could choose better leader.

Today Mr.Madhava Reddy,MRO of kavali was invited as the Chief Guest.He and other officials conducted a seminar in our college Presided over by our Principal,G.Gagadheeshwara Reddy. In this seminar most of the students enrolled their names through online processes then their itself. So the programme intended for a particular purpose is a successful one.

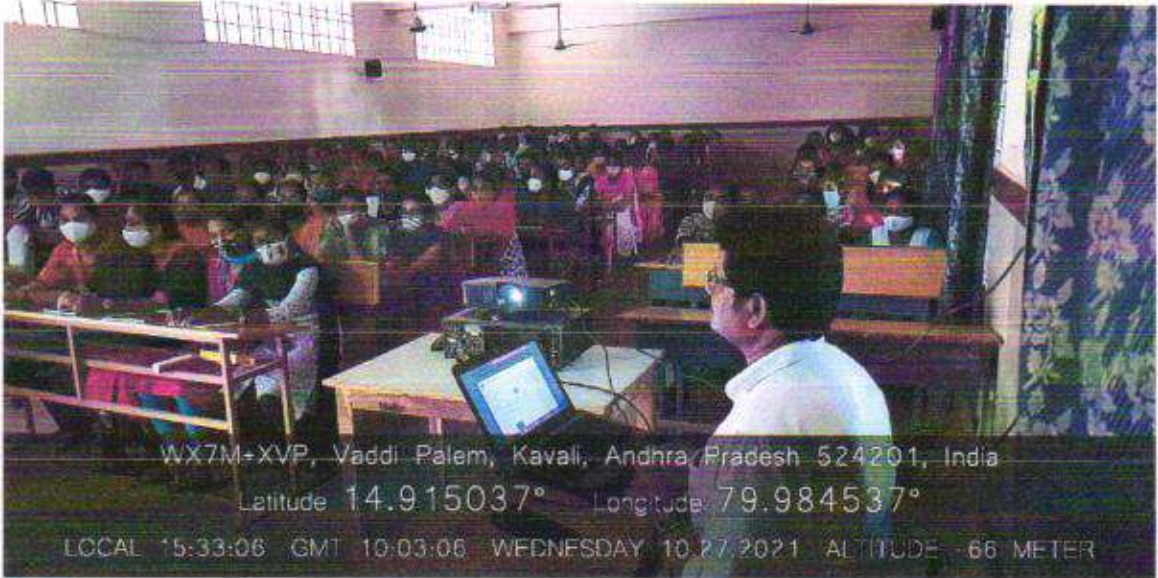

So the program was a big success and the activity was covered in all the local channels and also in many reputed dailies with the related photographs.

Awareness Programme on Consumer Protection act -2019

Now a days everything is business in this society because all essentials are considered as the commodities and every individual has to be smart in doing transaction otherwise they get deceived in this trade oriented community.

Because of the prevalence of this kind of environment one should gain the awareness on consumer acts that protect the interests of the people. If a person won't have an idea over the quality, quantity and price of the commodity he may get affected financially and health wise.

So the government has drafted the consumer protection act that supports the well being of consumers and all the citizens are suggested to follow and implement the same.

To create the awareness in this area a social service organization named AASARA consisting experts in various fields and lawyers headed by organization chief founder Mr Habeeb Sulthan Ali visited our college and conducted the seminars . They made discussions with our students so that students may gain the awareness on consumer protection act, a life style supporting programme. The students felt very happy with the knowledge gained in this particular area.

The programme was covered by local media and the news was published in all dailies with photographs when the distribution of stationary is in progress.

The children studying in this school and residing in the Hostels were taught many good things through the lectures of Principal of Jawahar Bharathi Degree College, Kaval Sri M.Venkateswarlu, Chief guest of this occasion. The children were asked to implement them that helps them to shape their future in more better manner. The NSS volunteers have distributed the articles like note books, pen, pencil, eraser, sharpener, scale etc. later on till the lunch time.

So all the students of these two big schools have got supplied with the necessary stationary and expressed their gratitude to the volunteers who actively involved in the distribution of articles.

The distribution programme was a complete success and the whole programme was progressed with the involvement of students and was supervised by the officials who have guided them throughout the day.

The programme was covered by local media and the news was published in all dailies with photographs when the distribution of stationary is in progress.

Sub: - Detailed report on *children's day* celebration 2021 – Reg.

Children's Day in an auspicious occasion to be celebrated in a very colorful manner since we commemorate this to remember the first Prime Minister of our country Sri Pundit Jawaharlal Nehru on his birthday. For Sri Pundit Jawaharlal Nehru, students were supreme. We, the PBR VITS NSS UNIT intended to provide the minimum stationary like note books, pens, pencils, erasers, sharpeners, scales etc , to the school going poor children on the occasion of *children's day* . The PBR VITS NSS UNIT wants to accomplish this task with the cooperation of our students who intended to involve themselves voluntarily in this laudable programme. We planned to organize a programme of free distribution of stationary to school going poor children studying in noncorporate schools.

The PBR VITS NSS has placed the proposal before the students and the students have responded very positively. They have come forward and wanted to share the joy in the midst of the happy children. Some of them have purchased few little articles and donated very generously. We have chosen the non corporate schools for the distribution of articles because most of the students of these schools are from poor economic background and they use to stay in the hostels which are far away from their native places.

In the morning session we went to local Gurukul Boys School with Residential Hostels where most of the students are belonging to lower middle class economic group. This is an aided school established with a motto of educating the poor children and functioning in a more dedicated way and this school is a chief education source that brought a lot of change in lives of the poor and down trodden people of this region. The staff and students of this school have invited us and they have cooperated much in the whole distribution programme. The Principal of Jawahar Bharathi Degree College, Kaval Sri M.Venkateswarlui is the Chief Guest of this occasssion.The NSS volunteers were given an opportunity of taking an active role of distribution of the stationary to all the boys and the children felt very happy after receiving the different useful articles.

The children studying in this school and residing in the Hostels were taught many good things through the lectures of Principal of Jawahar Bharathi Degree College, Kaval Sri M.Venkateswarlu, Chief guest of this occasion. The children were asked to implement them that helps them to shape their future in more better manner. The NSS volunteers have distributed the articles like note books, pen, pencil, eraser, sharpener, scale etc. later on till the lunch time.

So all the students of these two big schools have got supplied with the necessary stationary and expressed their gratitude to the volunteers who actively involved in the distribution of articles.

The distribution programme was a complete success and the whole programme was progressed with the involvement of students and was supervised by the officials who have guided them throughout the day.

The programme was covered by local media and the news was published in all dailies with photographs when the distribution of stationary is in progress.

With Regards,

World Energy Conservation Day

In India Energy Conservation Act was implemented by the Energy Efficiency Bureau (BEE) in 2001. Energy Efficiency Bureau (BEE) is a constitutional body which works under the Government of India and helps in the development of policies and strategies to reduce the use of energy.

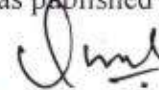

To create awareness in the public we think that the student community is the best segment that must get processed in this particular dimension to get good results in saving the energy. We want to shape them in such a way that they relay more upon Renewable energy resources than to Nonrenewable energy resources.

This trend of utilizing the energy generated through Renewable resources is already been adapted in our college. In our college we have a mega solar project, biogas plant and growing good vegetation to meet the need of fire wood with which the canteen furnaces are working.

Today we the NSS Unit conducted the seminar on this topic in our college where the Principal Dr Dattatreya Sharma presided over the function and the chief guest Dr Madhusudhana Reddy addressed the students by giving a lecture on conservation of energy in our day ay life and as well in the area of agriculture and industry.

So our college is implementing the phenomenon where there is no much dependence on nonrenewable energy resource and become a unit with self sufficiency in terms of energy. We take our students to these projects in our college in addition to other nearby renewable energy resource projects like wind energy projects and Ocean energy projects.

The programme was covered by local media and the news was published in all dailies with photographs when the distribution of stationary is in progress.

National Girl Child Day

As we all know half of the Nation population is female population. The female population origins with girls who are more in number Now the problem is to maintain the well being of this segment called girl population,which is now in pathetic condition

The girls are preferred least when the birth is concerned and moreover many constrains are set while they grow since ours is a male dominated society. To condom this kind of attitude this people the policy the protect interest of girls is being developed and implemented by the government of INDIA. To emphasis this policy the country has declared 24th Jan of every year as national Girl Child Day.

In connection with the meaning full celebration of this day we conducted programmes in our college by inviting many delegates Dr. Kavaya Suvarchala, a Senior Professor as Chief Guest of this programme.More number of staff members have attended the programme. The delegates gave good massage to the students in the seminar and they have interacted with the students. They gave good suggestions to the girl students so that they can mould they life in a better way.

So the program was a big success and the activity was covered in all the local channels and also in many reputed dailies with the related photographs

NATIONAL VOTERS DAY

Vote is right to choose the better leader so that the life style of the individual gets improved and the society gets shaped in fie manner. So the voters are suggested to think more before they cast their vote by not getting influenced by any meaning less act so every individual is suggested to choose a suitable political leader who can handle the things with more sincerity.

Keeping this in view we have conducted a seminar in the college with large Number of students by inviting the delegates of nearby. The chief guest of seminar Prof.Razvee a senior professor has given valuable suggestions to the students. They emphasized the need for electing a suitable leader who feels the responsibility in the aspect of improving the living area and also the living standards of the people who rely upon him by casting their valuable vote in his favour.

Later they made discussions with the students over the issue and the awareness got improved in the students with respect the power of proper voting

So the program was a big success and the activity was covered in all the local channels and also in many reputed dailies with the related photographs.

Republic day

All of us know the importance of republic day since it is the pride for the whole India be recognized as the country having ability to run on its own with a parliament having independent existence and does not require the support of any other nation in framing the rules, making bills and for proper implementation. So our country was freed completely from the hands of british .so we celebrate this in the name of republic day to commemorate the freedom attained out of our capabilities and our constitution come into force.

To celebrate this occasion we the PBR VITS NSS UNIT took active part in the flag hoisting programme in the college. Students have gathered good number in the early morning .the programme was started with unfurling of national flag by chief Prof Dttathreya sharma, Principal,PBR VITS,Kavali. Later he delivered the speech emphasizing the role of students in building new India and he explained the sacrifice of the freedom fighters in achieving the freedom to the country. There speeches given by the lecturers stating the sincerity and commitment to be adapted by the present generation with a goal to make India a model country. Thereafter the students also made promises pertaining to their role so that the country could grow to the expectations of our leader. While the completion of the programme the students sung national anthem followed by the distribution of sweets.

The programme was covered by local media and the news was published in all dailies with photographs when the distribution of stationary is in progress

LEGAL LITERACY CAMP

Today most of the people of our nation are literates but they are unaware of the loss that would improve their life. Apart from the Knowledge the people gain through education by getting trained in the concerned subject only, they must also beware of loss and norms that helps them to lead a meaning full life.

To improve the knowledge over the legal issues the dignitaries of our place, Senior Civil Judge, and Mandal Legal Cell President Sri Pandu Ranga Reddy Presided over the programme and also many senior layers have visited our college. We conducted a seminar in our college through which good suggestions given to the students and later interaction made with the students through which several doubts on legal issues were cleared.

Further the delegates taught the laws that condom unlawful activity which is now found in many professional colleges named RAGGING the juniors. They suggested students no to practice such deed that spoils their future and be friendly with the juniors that creates joyful atmosphere in the campus.

So the program was a big success and the activity was covered in all the local channels and also in many reputed dailies with the related photographs.

International Women's day

This is a very auspicious day since it pronounces the significance of women's rights and improved values that are to be maintained throughout the world, so that the present generation and future generations of female population will enjoy the human rights on par with the male population.

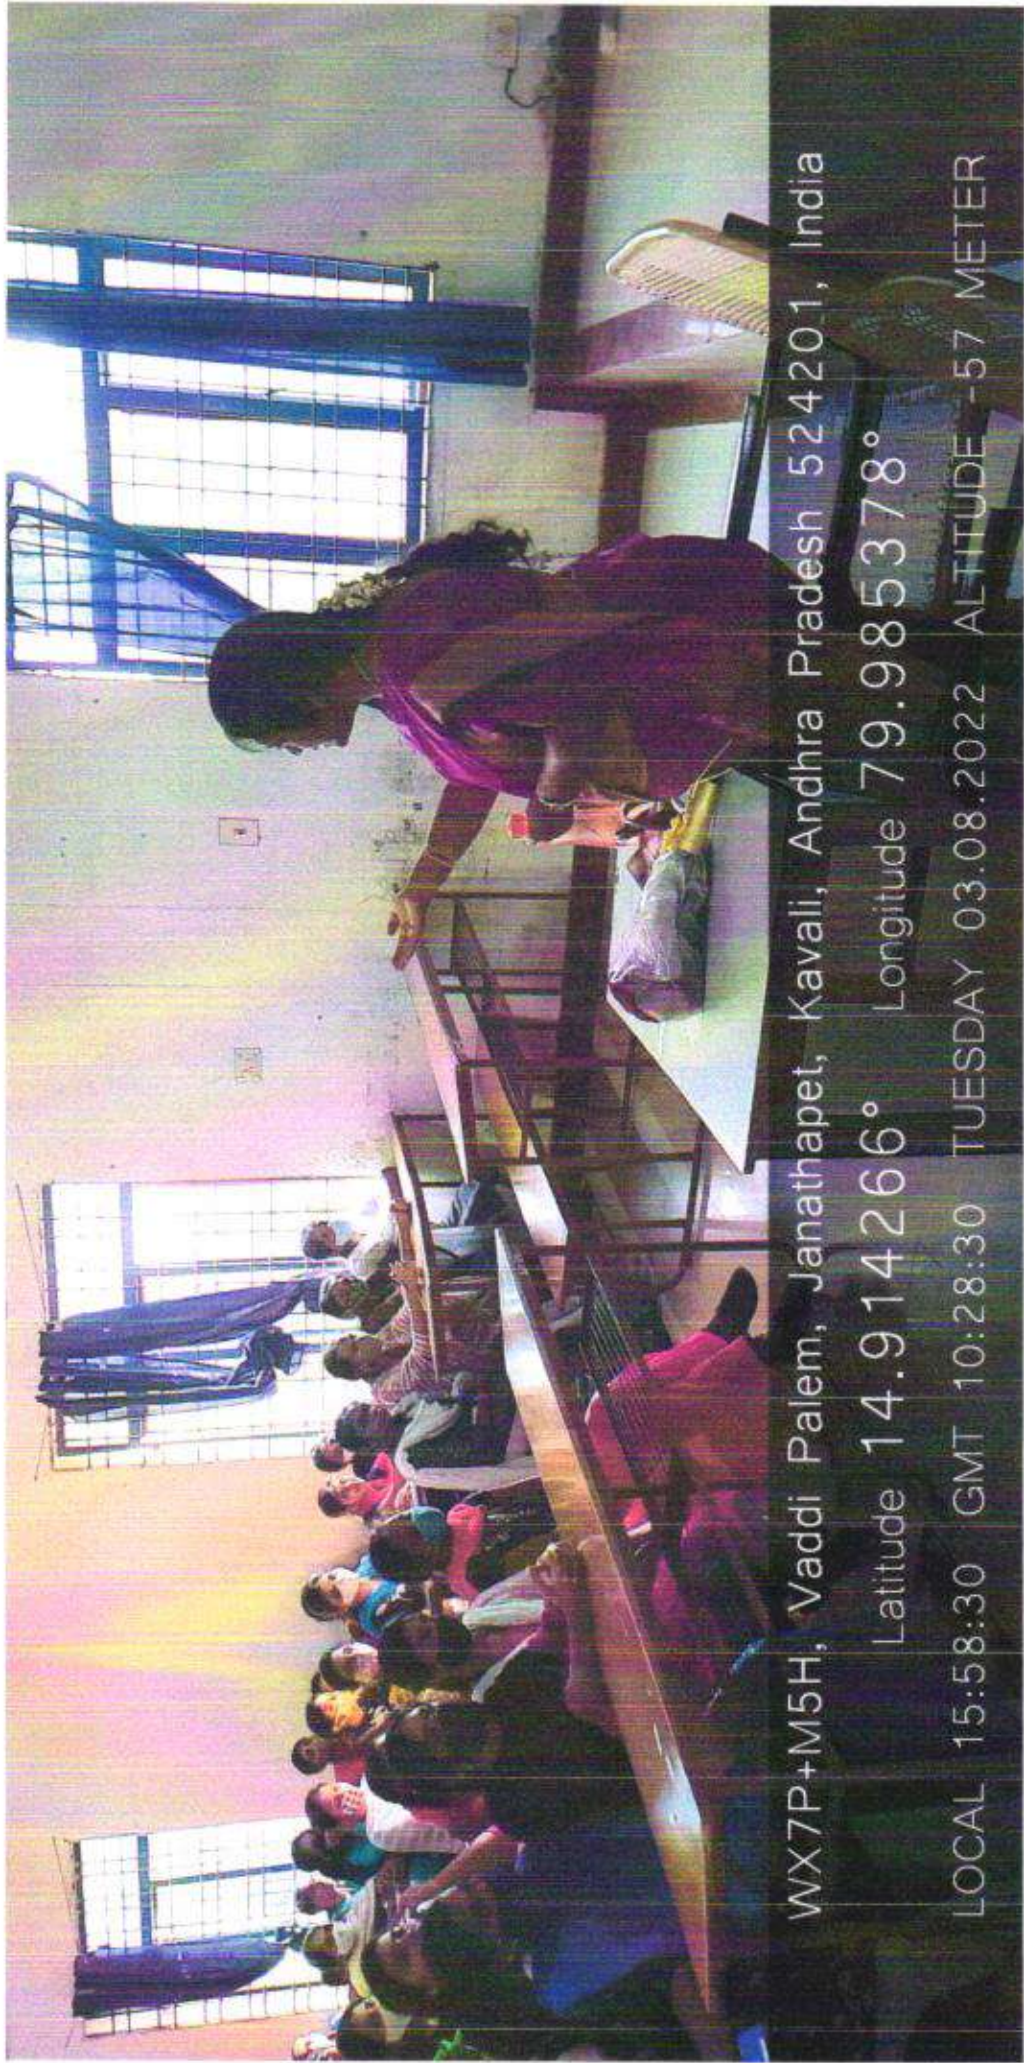

On this day nearly 450 girls students were gathered in seminar hall and were given the privilege to gain the awareness through the message given by Senior Professor Dr K V Sitha Kumari, Professor, S V PG Centre, Kavali, SPSR Nellore Dist, AP was the chief guest for today's occasion. This is a wonderful celebration in which a good gathering of girl students was arranged and good messages were given by the elder women. Later the girl students spent their time in debates on the women empowerment in today's society. Further many of them have revealed that they also extend their cooperation and do their best to uplift the poor girls in the future. They also pronounced that after getting settled in their job, they adopt a few poor female children and make them the women with better economic, social status. The programme was commenced with a motto to improve the awareness in the women which in turn results the women upliftment and empowerment in society.

The events were covered by the media and daily newspapers. Here with, I am enclosing the clipping of the prominent daily newspapers and also few photographs of the events conducted, for your reference and records.

With regards,

World Water day

Today the PBR VITS NSS Unit has organized *World Water day* to create awareness in the local people with regard to conservation and harvesting of water. We the NSS unit consisting both boys and girls have started from the college with banners and placards with the slogans that support the proper utilization of water.

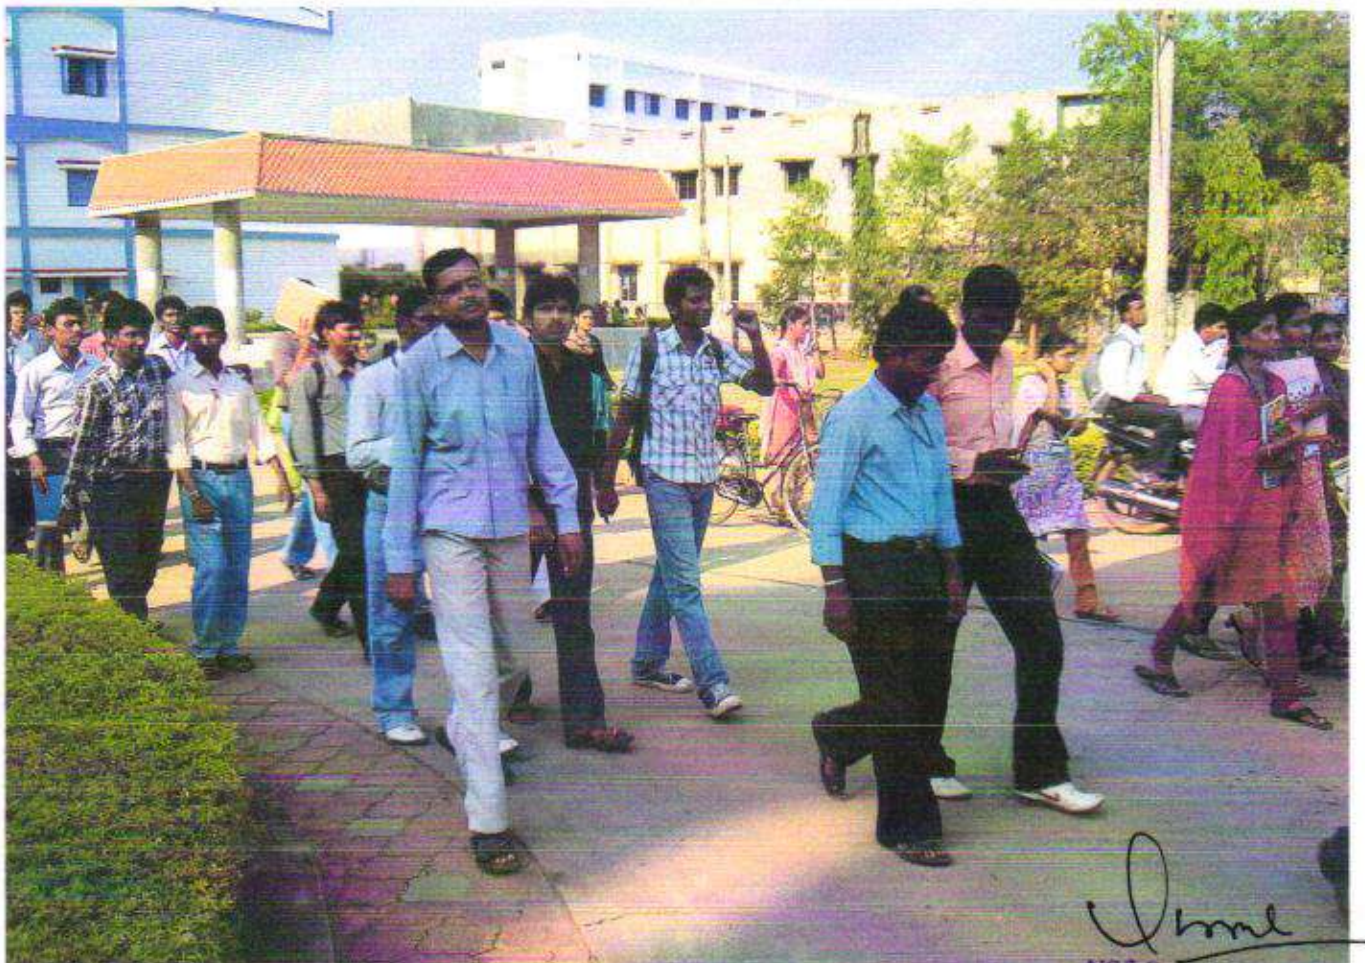

We went around the streets ,and visited many houses. we had discussions with local people and revealed the goodness of the water and created awareness in this aspect. we also visited the social welfare hostels and observed the utilization of the water for the purpose of drinking and also for washing. We had conversations with the wardens of the hostels and gave some suggestions so that the available water is properly utilized.

The students have participated and enjoyed the programme very much since this has given the opportunity to know about the importance of water so that they can reveal the same to the people of their native places. Hence we can emphasize that this is a good opportunity for all the people who involved in the programme "*World water day*" since it provides the chance for them to improve their knowledge on a life supporting material called WATER.

The whole work was covered by media persons and I am here with sending the same of the clippings of reputed newspapers and also a few photo graphs of the even launched for your reference and records.

ANANTHAPURAMU - 515002 (A.P.)

Dt. 31.03.2022

Duration : 7 Days (i.e. from 15th March to 21st March 2022)
Segment : JALADHANKI, Kavali Rural,SPSR Nellore Dist,A.P

Based on the permissions and sanctions of JNTUA, Anantapur, and by the co-operation extended and directions given by JNTUA, Anantapur N.S.S. Unit, we the PBR Visvodaya Institute of Technology and Science, Kavali has successfully conducted the Annual special camp for 2021-'22 at JALADHANKI, Kavali Rural, SPSR Nellore Dist,A.P

We have scheduled our Programme for 7 days i.e. from 15th March to 21st March 2022 since the Village is nearer to our college and a habitat containing poor and down trodden people. We, the staff and students numbering 50 were participated in this camp and conducted many events with the timely cooperation of our college authorities. The students have involved voluntarily in many events and performed the functions with a great enthusiasm. The local people felt very happy and appreciated the work done by the NSS Volunteers in their village.

The students have participated in many programs like Tree Plantation, Minor road repairs, distribution of seeds, interaction with the rural people, conveying the message to the locals through rallies and also involved in the Medical camps . The students conducted many debates in the hamlet and created awareness in the residents pertaining to health, hygenity, water conservation, literacy, youth leadership and fighting against social evils.

Many doctors, teachers, social servants and local leaders also participated in the concerned events which are connected to health of the local poor people and health of the cattle. We have conducted Children and Women health checkup, general health checkup,CORONA awareness camp, AIDS awareness camp Human health and animal health checkup and distributed medicines at free of cost.

Here with I am sending the details with regard to our activities performed in the hamlet and the clippings of daily news papers, few photographs covering all the events.

Ref: -By the orders of the Registrar, to affiliated Colleges NSS Units through letter no7614/NSS-4-2011,Dt 23-06-2011.

Date : 15.03.2022

1st Day

Events:

- 1) Rally and slogans in the streets with N.S.S. Banner
- 2) Youth leadership Programme

NSS Volunteers reached the proposed hamlet,a SC Colony, JALADHANKI, gathered in good number where local people are also included there by lunching a Social Awareness rally with N.S.S. Banner and went around the streets with the slogans proposed to create Social Awareness in local people on many useful aspects.

In the afternoon after taking lunch we went to the residents with the concerned banners and went to the busy centers where more people assemble and we have selected a few young people among them as leaders and explained them the need of knowledge management after teaching them certain things with regard to clean green, hygenity, social and cultural relationships. We have trained them in such a way that intern train many residents.The proposed programmes were come to an end for this day.

Sub: - PBR VITS NSS Unit – Woman empowerment, Literacy programme, Distribution of vegetable seeds on 16-03-2022 in JALADHANKI, Kavali Rural,SPSR Nellore Dist,A.P –Submission of Report – Reg

Ref: - By the orders of the Registrar, to affiliated Colleges NSS Units Dt. 27.02.2011.

Date :16.03.2019

2nd Day

Events:

- 1) Woman empowerment
- 2) Literacy Programme
- 3) Distribution of vegetable seeds Water conservation

We have made discussions with women in the village and made them aware of many schemes that are beneficial and the privileges offered to them by the government. The girl volunteers along with resource person named Mrs. G.Thirumala madam gathered women and talked to them on many problems they face in the village in their day to day life both financial and also domestic. They have found solutions with which they are suffering . They were taught about the benefits they gain through Govt schemes meant for women and also the ways and means to grow financially and socially. So the women of the village got advantage of knowing many useful things that serve them to get empowered by which enhances the self respect in them and confidence in them.

After lunch, we resumed our functions. The need for literacy improvement is explained to the residents and we selected a few people in the same hamlet, who have basic educational standards and asked them to teach the same to the fellow people who are mostly illiterates. The programme was continued upto the late evening.

Later all the volunteers went to the houses and distributed seeds and suggested the residents to sow them and grow the vegetables and greens for better nutrition for them and for their children. The residents have shown more interest in taking the seeds with a promise to sow them in their surroundings .The programme was lasted up to the evening.

Ref: -By the orders of the Registrar, to affiliated Colleges NSS Units Dt. 27.02.2011.

Date :17.03.2019

3rd Day

Events:

- 1) Clean and Green
- 2) Water conservation programme

As the volunteers are very much interested in doing clean and green they themselves went for doing the activity with related tools. The street where the activity is required is chosen and volunteers made them clean by clearing the weeds and stones on the streets and they swept the roads very neatly. Later they went for plantation of shade giving trees along the road sides. The volunteers shaped the bottom of the trees so that the water poured is stored. we have arranged the tree guards to protect them from the animal attacks. So these streets will become model streets in the days to come.

On this day after taking breakfast we went around the homes and gave suggestions to the residents on water conservation methods and the importance of pure water. We also suggested few methods that are usually employed in making the water germ free and pollution free that protects the health of a common man who is not in a position to purchase the water to drink

Sub: -PBR VITS NSS Unit – AIDS Awareness Camp and CORONA Awareness rally
on 18-3-2022 in JALADHANKI, Kavali Rural,SPSR Nellore Dist,A.P –
Submission of Report – Reg.

Ref: - By the orders of the Registrar, to affiliated Colleges NSS Units Dt. 27.02.2011.

Date :18.03.2022

4th Day

Events:

- 1) AIDS Awareness Camp
- 2) CORONA Awareness Camp

After taking lunch we have arranged AIDS awareness camp. Many people were gathered and the debate took place and suggestions were given by doctors with regard to severity, magnitude and measures to be taken to prevent the spreading of this disease. So the residents have got improved in the aspect of knowing the facts regarding this epidemic disease. The Programme was continued up to the evening.

The volunteers have better knowledge over corona pandemic and wanted to see the villagers must also gain some knowledge over this pandemic disease. So we have conducted a rally in the streets with banner and by shouting related slogans to alert the villagers. Later many villagers have gathered at many places and shown more interest to know about this communicable disease. They asked many doubts regarding mode of spread of this disease.

.All their doubts were cleared and three main acts named “Wearing the mask, maintaining the social distance and avoid physical contact” were made as slogans to shout by the villagers during the progress of the rallies.

Sub: PBR VITS NSS Unit – Tree Plantation Programme Doing repairs to roads on
19-3-2022 in JALADHANKI, Kavali Rural,SPSR Nellore Dist,A.P – Submission of
Report – Reg.

Ref: - By the orders of the Registrar, to affiliated Colleges NSS Units Dt. 27.02.2011.

Date : 19.03.2022
5th Day

Events:

- 1) Tree plantation Programme
- 2) Repairs to roads

This is the day we planned for Tree plantation. We took many saplings and material to make ditches and to work with soil. The N.S.S. Volunteers both boys and girls involved in the tree plantation work with a great enthusiasm. We have started plantation Zilla Parishad High School. After completion of this assignment in the School, the plantation was done along the road sides of the hamlet. The whole day, volunteers were busy with this work. A little break was taken in the afternoon for lunch.

We, the volunteers reached the site. with all the material then started doing repairs to the roads. We have noticed the uneven areas and ditches on the roads and done repairs by putting soil and made them leveled. Both boys and girls have participated in the road repair work and this work progressed till the lunch time.

Date :20.03.2022

6th Day

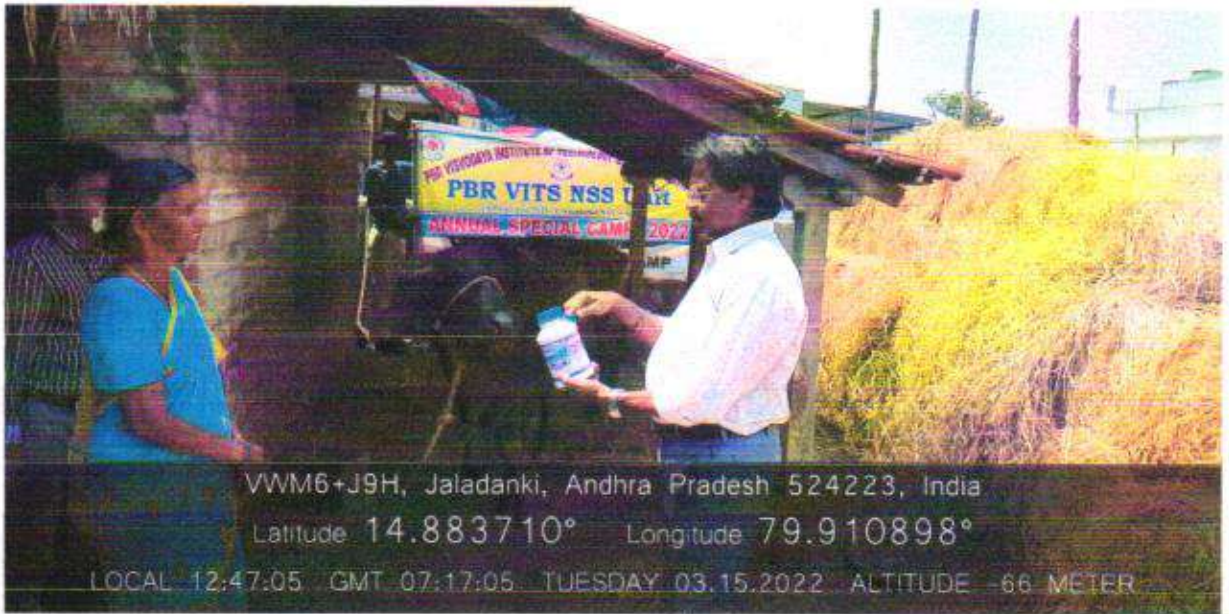

Events:

- 1) Animal Conservation
- 2) Sheep Culture

All the volunteers reached the site and a Veterinary Doctor with us and animal health checkup programme was launched. We went to the homes where there are cattle and sheep. Their health was checked up and medicines were given at free of cost and suggestions were given where it is necessary. This programme was continued up to the lunch time.

Sheep culture is the most advisable activity for a poor farmer to depend on. So that they can grow financially and some of the villagers possess sheep and culturing them for their livelihood. They said that they are going into losses due to various diseases that suffer the sheep. So a veterinary doctor who is with us go around few such sheep farms and gave some useful advises and we arranged few medicines at free of cost to heal. The villagers who are interested in doing this practice were gathered and were given some suggestions to them by veterinary doctor that includes the ways and means to generate money to buy the baby sheeps. Further we have searched for the areas where the sheep can go around and eat the grass also at the reach.

Dt. 21.03.2022

Sub: PBR VITS NSS Unit – Hygenity improvement debates ,Conduction of Medical Camp and suggestions on 21-3-2022 ns in JALADHANKI, Kavali Rural, SPSR Nellore Dist,A.P– Submission of Report – Reg.

Ref: By the orders of the Registrar, to affiliated Colleges NSS Units Dt. 27.02.2011.

Date :21.03.2019

7th Day

Events:

- 1) Knowledge on Higenity
- 2) Medical Camp

We have gone around the streets watching the hygienic conditions prevailed in the colony and found they are not up to the mark. So in this regard we made discussions with residents and given some suggestions by our doctor stating that these changes would definitely improve the health conditions of the children mainly so that they won't prone to the diseases.

This is the last day of this Annual Special camping programme. All the day, we were busy with medical camp. Students went around the homes to bring the people and there was a big crowd and good gathering. Many people have come to the camp to meet the doctors to take suggestions and free medicines. The old people and also the children were suffering due to many diseases concern to eyes also and they were treated with medicines at free of cost. .

The residents felt very happy and students also expressed their satisfaction in doing such appreciable Job. The elders and local leaders reached the camp and expressed their regards for selecting their area to do the developmental activities through PBR Visvodaya Institute of Technology and Science N.S.S. Unit. They also expressed their sincere thanks to JNTUA, Ananthapur NSS wing for their magnanimity.

The weeklong camp is closed and we, the PBR VITS NSS Staff and volunteers are very happy since this camp has given us an opportunity to know many things about the society and satisfaction gained after serving the innocent villagers those who are in need and who have to improve their awareness with regard to health, hygenity, literacy, nutrition, water conservation, social and cultural activities.

We the PBR Visvodaya Institute of Technology and Science, NSS Unit express our sincere thanks to JNTUA, Ananthapuramu and University NSS wing for enabling us to serve the people and in turn to our great Country.
